Tobiasz Sadowski

IT Administrator | IT Infrastructure | Systems & Networks

Bielsk Podlaski | sadowskitobiasz2000@gmail.com | 784 818 387

PROFESSIONAL SUMMARY

IT Administrator with hands-on experience maintaining Windows/Linux infrastructure and providing L2 user support. I independently diagnose hardware, system, and network incidents and collaborate on more complex cases. I administer Active Directory (users, groups, GPO), Proxmox VE, Docker, QNAP/NAS, and pfSense, and work with LAN/WLAN, VLAN, VPN, DHCP, and DNS. Experience includes 30+ office workstations and production systems where service availability and continuity are critical.

PROFESSIONAL EXPERIENCE

Laktopol-B | IT Specialist / IT Administrator | 07.2024 - Present

- Troubleshooting & incidents: independent diagnosis and resolution of hardware, system, and network incidents; complex cases handled collaboratively. Examples include a corrupted NAS disk, a full ZFS pool, and a pfSense/router failure.
- Virtualization & servers: creation, configuration, and administration of VMs and LXC/CT containers in Proxmox VE; resource management, Docker, and QNAP/NAS administration.
- Active Directory: administration of user accounts and groups, including implementation and configuration of Group Policy Objects (GPO).
- Networking & infrastructure: configuration and troubleshooting of LAN/WLAN, TCP/IP, DHCP, DNS, VLAN, and trunking; MikroTik, D-Link, Ubiquiti PtP/PtMP links, and replacement/deployment of network switches.
- Security & connectivity: administration of pfSense, firewall rules, IPsec/OpenVPN connections, and DNS, SMTP, IMAP, and STARTTLS services.
- Migrations & data recovery: migration of applications and data between workstations, including legacy database-dependent weighing software, plus recovery of data from failed storage media.
- Monitoring & ITSM: service availability monitoring with Uptime Kuma, ticket handling, and work documentation in GLPI.
- L2 support & environment scale: Windows/Linux user support and maintenance of 30+ office workstations, remote devices, and systems used in a production environment.

Anatol Sp. z o.o. | Service Support Clerk / Office Assistant | 11.2022 - 09.2023

- Diagnosed office equipment faults and performed basic hardware repairs.
- Provided user support, monitored device operation, and handled technical and administrative documentation.
- Communicated with customers and explained technical diagnostic results.
